## brochure package

The brochure package offers a professionally designed website, tailored to your specifications. It can be based on your existing corporate literature and include a combination of logos, photographs and text.

You may only require a simple 1-page website to give you a presence, or you may be looking for a multiple page website with company information, contact forms etc. Each page will be designed with a similar theme, and linked together with clear use of navigation.

Our brochure package is based on a price per page basis. However larger websites will be priced per website.

### TECHNICAL INFORMATION

#### ➤ HOSTING

Hosting will be provided on our fast and reliable linux servers. These are monitored 24hrs per day. All our hosting packages include a Plesk control panel, examples of which can be seen on request. The control panel gives you access to web statistics, email control and many other useful functions.

#### ➤ DOMAIN NAME REGISTRATION

A domain name is your address on the internet. It makes your website very easy to find and instantly recognisable e.g. [www.yourcompanyname.com](http://www.yourcompanyname.com). Before creating your website, we can organise your domain name for you, if you have a domain name already, we can simply point it to our servers and host your site.

#### ➤ SECURE HOSTING

Our secure hosting package includes 32-bit encryption which is needed to take credit card payments online or retain customer details.

#### ➤ INTERNET MARKETING

We can offer a range of internet marketing including registration with search engines, directory linking and inclusive links pages.
